## SLEEP, MINDFULNESS, AND DE-STRESS

60min | 90min

Biohacking, also known as *Human Enhancement*, is a term used to describe do-it-yourself biology and has evolved from the field of Sports Medicine. It involves making incremental changes to your body to improve your health and well-being.

The Biohacking Treatment at Fairmont Spa Century Plaza involves reclining on an anti-gravity bed (removing all pressure on your body's joints) and a HigherDose Mat. The HigherDose Mat supports your body's natural recovery process with Magnetic Field Therapy, heat, and healing crystals. You are zipped into a pair of NormaTech Lymphatic Drain boots to help ease muscle tension and detoxification. A NuCalm Disc is applied to your left wrist, activating your parasympathetic nervous system via the Pericardium Meridian; it stops your acute stress response so that cellular restoration and relaxation can take place. Lastly, a soft blackout eye mask is applied before beginning a Binaural Meditation Journey blending alpha and beta frequencies. Alpha frequencies (8 to 13 Hz) are thought to encourage relaxation, promote positivity, and decrease anxiety; Beta frequencies (14 to 30 Hz) have been linked to increased concentration and alertness, problem-solving, and improved memory.

Biohacking has different effects for everyone, some may feel more relaxed while others may feel energized. We recommend enjoying your treatment a minimum of 4 hours before retiring to sleep.

Comfortable, loose fitting clothing is highly recommended.
